Located in a Federal Opportunity Zone

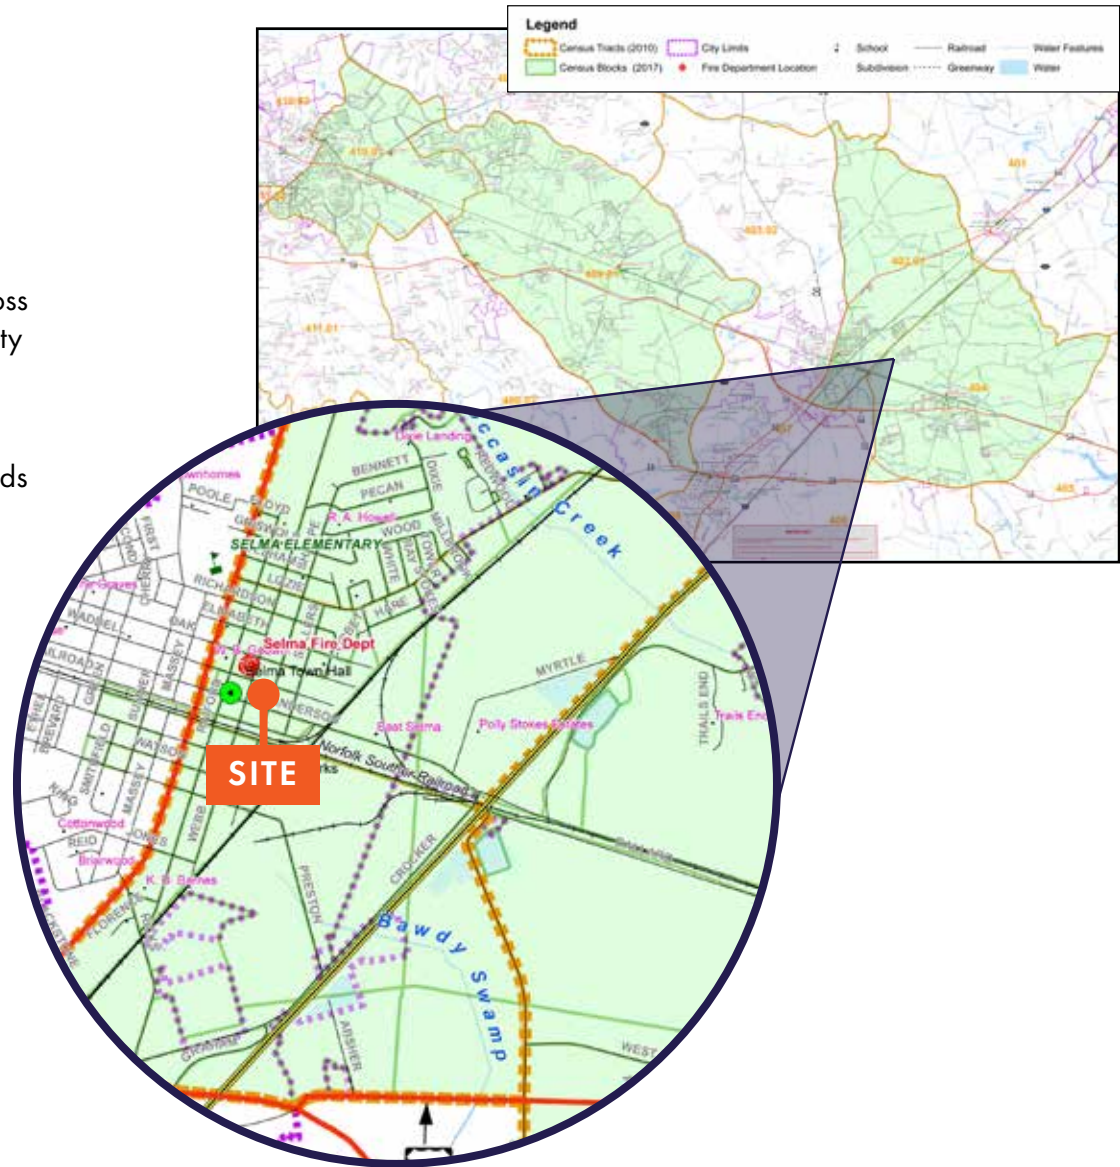

North Carolina Opportunity Zones Program

The Opportunity Zones Program (Sec. 13823) provides tax incentives for qualified investors to re-invest unrealized capital gains into low-income communities throughout the state, and across the country. Low-income census tracts are areas where the poverty rate is 20 percent or greater and/or family income is less than 80% of the area’s median income.

Investments made by qualified entities known as Opportunity Funds into certified Opportunity Zones will receive three key federal tax incentives to encourage investment in low-income communities including:

- Temporary tax deferral for capital gains reinvested in an Opportunity Fund
- Step-up in basis for capital gains reinvested in an Opportunity Fund
- Permanent exclusion from taxable income of long-term capital gains

Quick Facts: Growth in One of NC's Fastest Growing Counties

Johnston County is located in the eastern-central part of North Carolina, with close proximity to the state capital, Raleigh. It's positioned within the Coastal Plain region of the state, characterized by flat terrain and fertile soils.

Traditionally, Johnston County's economy was largely agrarian, with tobacco, cotton and other crops being primary economic drivers. As the region and neighboring areas like Raleigh grew, the economy diversified. Today, it includes sectors like manufacturing, healthcare, retail and more. The county's proximity to major highways, like Interstate 95 and Interstate 40, also makes it a significant hub for logistics and transportation.

The population has been growing steadily, thanks in part to its proximity to the booming Raleigh-Durham-Chapel Hill area. This growth has resulted in increased suburban development in the county.
